

Horizontal market preferences

The squares indicate the markets in which a company has superior expert knowledge. It leaves undiminished their wide, overall software development experience.

	No preference	Web solutions general	ERP	SCM	CMS	CRM	Business Intelligence	Order processing	Document and workflow management	HRM	Finance & Administration	e-Commerce	Corporate Performance Management	Embedded Software development	Data warehouse application	Call & Service Centre automation	Sales force automation	System integration	Finance & admin	Electronic data entry applications	BSM (Business Service management)	Utilities & water waste management	SME general	Collaboration
